MARCUS BUTTERLY

Mr. Butterly has more than 20 years of experience in project development, design, and consulting. Mr. Butterly's project experience includes communications switch facilities, wireless point-to-point broadband facilities, and PCS mobile phone networks.

Mr. Butterly has consulted on a variety of matters including pipelines, performing art centers, power plants, airports, residential, and commercial construction projects. Mr. Butterly has performed cost analyses as well as analysis of schedule disruption, delay, and reviews of design impacts affecting both project cost and schedule completion.

Prior to joining Veritas, Mr. Butterly worked as a design and construction management consultant for communications network deployment projects. Mr. Butterly held positions in engineering and project management with o2wireless Solutions, Winstar Communications, and Carter & Burgess.
